

PRODUCT INFORMATION

PTO PI1702.1_GB

Wiper for profile combination 0v/1; 1G; 1H

Order no.: 602640
Drawing no.: 68.18.27

Benefits of the wiper

- > Reliable sealing of pipe profile combination
- > Prevents dirt penetrating
- > Renewal of lubrication film
- > Reduction in loss of grease

Wiper for profile combination 0v/1; 1G; 1H

The new wiper for section pipe 1 is used to obtain a reliable seal with profile combination 0v/1; 1G; 1H to ensure that dirt can be kept away from this sliding combination on the one hand, and also when renewing the lubrication film. This special seal for the pipe combination repels dirt and prevents loss of grease.
